

COMING FORWARD WITH A BIG RUSH

WELTY'S CANDIDACY CAUSES A CHANGE IN SITUATION.

The Canton Man Will Probably Get
Big Hamilton County Delegation—The Situation.

A Columbus special to the Cincinnati Enquirer says: "John C. Welty's entrance into the contest for the Democratic nomination for governor has worked pronounced change in the situation. Like Minerva, the Canton man appeared full armed and ready for the fray. Until that hour it seemed as if the issue was between John M. Patterson of Clermont and Lawrence T. Neal of Ross, with a formidable field of candidates of minor importance waiting to take advantage of a mistake or a mishap to either or both of them. Now it can be set down as accurate that Welty is equal in strength to either Patterson or Neal, and if there is anything in ante-convention rumors he is coming to the front with a rush. Col. James Kilbourne's formal retirement from consideration as a candidate, which came today, gives Welty an equal chance for the capital city delegation with Lawrence T. Neal, it being accepted that there is no Patterson sentiment here.

"From Cincinnati comes the intelligence that if no Hamilton county man can be landed Welty will get some of the big delegation. Living in the north-eastern part of the state, he is in a position to exert a strong pull upon the Cleveland contingent, although this is a doubtful quantity to build upon. That he will be the second choice of the Seventeenth district, which has two candidates in the persons of Judge S. M. Hunter and Abraham W. Patrick, is claimed for him, but disputed by the friends of Lawrence T. Neal, whose name is still an inspiration for the party leaders in that section. It is reasonable to infer, however, that he will get some of the district's support if it should become plain that neither Hunter nor Patrick can land the nomination. The very fact that the Canton candidate is in the race is an indication that he believes that he has a chance to win. As written of him in these dispatches some weeks ago, it is his nature to look before he leaps and to think before he speaks. It was not until he had made a careful survey of the situation that he decided to permit the use of his name, and this in itself is an assurance to observers of conditions that he had fully satisfied himself that he was making no mistake in entering the sweepstakes. His friends say for him that he will be found disputing every inch of ground with his rivals and that when the convention comes on they will know that they have been in a fight."

A HOT WAVE

Of Unusual Intensity Is Central in
Nebraska.

Lincoln, Neb., June 4.—A heat wave of unusual intensity is central in Nebraska. The mercury at the United States weather observatory has mounted to 92 degrees above zero and established a new maximum record for the first of June for the past 29 years. The excessive torridity followed a long season of cool weather, and many prostrations are reported, although there has been no fatalities.

The heat, however, will be of material benefit to the corn crop.

All Quiet at Chicago.

Chicago, June 4.—Everything was quiet with regard to the strike today and tonight. Several of the members of the Employers' association held quiet conferences this evening and it is understood prepared for aggressive work beginning tomorrow. Most of them declined to talk of the situation.

HE USED DYNAMITE TO COMMIT SUICIDE

House Wrecked, Son Terribly Injured
and Wife Wounded—Extraordinary
Act of Zeller.

New York, June 4.—John Zeller, a Ridgeport contractor tonight committed suicide by the extraordinary method of blowing himself up with dynamite in his home while his wife and son sat near him. The house was wrecked and his son terribly injured. His wife escaped serious hurt.

Zeller was carrying out a threat he had made to kill his whole family. In cold blood he held the attention of his wife and twenty-year-old son by talk, while he deliberately hid in his hand an infernal machine, which he finally exploded.

After the smoke of the terrific explosion of dynamite cleared away Zeller's remains were in every corner of the room, and the son lay with a section of the bomb in his breast.

FLOOD DAMAGES

(Continued From Page One.)

with a pilot engine a few yards ahead.

Along the course of the Washita river alone, the damage to crops alone is more than half a million dollars while the South Canadian river has been converted into a lake more than five miles wide. Both streams are cutting new channels through the lowland farms and many of the settlers have fled to this city and declare there is no use of their going back to their holdings as they are already bankrupt through the action of the flood.

The Santa Fe Railroad system is a heavy loser and its engineers are already at work preparing plans for the construction of a system of dykes which will protect its tracks in the future. Other railroads will adopt the same plan and it is estimated that this sort of work will necessitate the expenditure of close to a million dollars.

Of those whose lives are reported to have been lost in the flood on Sunday the name of only one person is known, B. M. Phillips, a farmer, who was drowned in his barn, 35 miles south of here, while trying to save a valuable pair of horses.

Word received from Snyder, Columbia and other southern towns state that they are under water and many houses have been swept away. The suffering among the inhabitants of the flooded district is very great and the territorial authorities are expected to take action to relieve those in want immediately.

HEAVY FOGS

Resulted in Disastrous Collisions in
English Channel.

Fortsmouth, June 5.—The heavy fog which beclouded the channel during the last 48 hours has resulted in additional collisions between the vessels of the channel fleet and merchant ships besides those already reported, and it is feared that the loss of life has been quite large.

In addition to the disasters reported Saturday, it became known yesterday that the big battleship Hannibal had been badly damaged in a collision with the German schooner Emmalluse off the Beachy Head. Both were towed in here last night in a very badly damaged condition.

Power.

St. Petersburg, June 5.—The czar has issued a ukase conferring almost dictatorial power in General Trepooff, governor of St. Petersburg and has also gazetted him as assistant minister of the interior, succeeding Major General Rydzefsky.

Lexington, Ky., June 4.—The first open fight as a consequence of the famous Hargis-Cockrell feud, which has raged in Breathitt county for the last three years, occurred near Lee City, in Morgan county, this afternoon and three men are dead and six seriously wounded as a result. The forenoon was spent in social session, and at noon a sumptuous dinner was served by the members of the Fairmount Grange. In the afternoon the regular business session was opened at 1 o'clock by C. A. Pontius, master of the Pomona Grange. The program was opened with a song entitled, "Three Cheers for the Plow, Spade and Hoe," by Mr. and Mrs. A. M. Eckert of Alliance and Mr. Shelton and Mrs. Weaver of Columbiana. An address of welcome was delivered by S. H. Rockhill and was responded to by Mrs. Halverstadt of New Berlin.

A report from subordinate granges of the county showed a remarkable increase in membership. The Louisville grange, started last March, was increased from forty charter members to a total roll of 100. The meeting was one of the most largely attended and one of the most enthusiastic ever held in the Pomona Grange.

URIG ARRESTED ON A SERIOUS CHARGE

Alliance Lieutenant Accused of Grand
Larceny—Failed to Return
Valuable Chain.

Alliance, O., June 4.—Lieut. E. J. Urig of Company K, Eighth O. N. G., was arrested Saturday afternoon on the charge of grand larceny preferred by Miss Mary Johnson. It is alleged that Miss Johnson lost a valuable watch and gold chain and that Urig found and returned the watch, but failed to return the chain, which was valued at \$50. He claimed that when the watch was found that the chain was not attached, and that he knew nothing of the chain whatever. His statements were thought to be false, and he was arrested. At first he stoutly affirmed that he knew nothing of the chain, but the officers allege that after he had been in jail for some time that he came around and admitted that he had the chain, but that he was just keeping it to let the owner sweat a little and to teach her a lesson. He was released at a late hour Saturday under bond of \$200, furnished by Col. Stanton Weaver. His trial was set for Tuesday morning.

SHOW DISBANDS

Nan Patterson Discouraged by Criticism
of the Public.

Altoona, Pa., June 4.—Nan Patterson's comedy company, "A Romance of Panama," disbanded here today, the "Florodora" girl leaving for Washington. She will not again attempt theatricals until next fall.

"I simply can't stand the harsh and unjust criticisms," she said. "I don't understand why the people should say the things they do about me. Acting is my profession, and I have a right to earn a living at it if I can." Miss Patterson is disheartened and discouraged.

"A Romance of Panama" was a vulgar show, without any meritorious features.

ADMIRAL TOGO

Visits His Defeated Foe and Expresses Sympathy.

Tokio, June 5.—For the first time since the battle in which the Russian fleet was destroyed, Admirals Togo and Rojestvensky met yesterday at the naval hospital at Sasebo. Togo called at the hospital and was taken at once to the bedside of Rojestvensky. He expressed the most sincere sympathy at the misfortunes that has overwhelmed the Russian commander and praised his bravery in the highest terms. He expressed the hope that the wounded admiral would soon be able to return to Russia.

Rojestvensky was deeply moved by the kind remarks of his foe and thanked him for them. He declared that Japan deserved great credit for the honesty and patriotism of her soldiers and declared that it lessened his regret and sorrow at defeat to know the high character of his conquerors. Every possible attention is being shown to Admiral Rojestvensky, whose desperate valor has brought him the respect and admiration of all Japanese officers. The surgeons in attendance declare that he is now practically out of danger.
